DOCKETED BY

Honorable Judge Nodes and Commissioners,

Please be advised that a great deal of inflammatory and incorrect information was provided in opposition to the K2 well during the ACC's public comment sessions. Naturally the public comment hearings do not allow for countering the inaccuracies. We have therefore, addressed those in the web site [www.WaterForPineStrawberry.com](http://www.WaterForPineStrawberry.com). Although in its infancy a great deal of research, facts and information is contained within its pages. The web site will be available for viewing starting 1/11/2008. It is respectfully requested that you review the contents of the site, enabling you to see the known facts as researched so far.

Sincerely,

Pamela Mason
